

Expectations for your child at Faith Works.

Mainly, we expect that your child will always try their best. Secondly, that they always have fun. Children learn at different speeds and some may struggle with different concepts and skills throughout the year, therefore for each child to succeed the following are important.

Come ready to learn.

1. Be well rested.
2. Come dressed for activities. Gym shoes keep our kids safe on the playground and while moving about in class. Weather appropriate clothes are a must, we want to stay healthy.
3. If the child is not eating breakfast with us please have them eat a good meal before coming. We serve a small snack but that is not enough alone to keep them going until noon.

Participate.

1. Children enjoy being part of the class. They feel more a part of it when they know what is coming and what they should bring. You can help your children by posting the monthly calendar for reference. We also will be sending a notes explaining some special activities or projects. This can help with parent child discussions.
2. Encouragement from parents and teachers we know is a must. And we encourage your child to try, and let them know that is all it takes to be a part of the learning process and a part of our class.
3. Asking questions help us learn. We plan to encourage your child to ask questions and hope that some of the time we will be learning together as we find the answer.
4. Let us know if you have time to participate we love parent involvement.
